## **INTRODUCTION TO ALBUM:**

As among the most successful independent artists in the music game today, R&B powerhouse Ray J is leaving both major label artists and independent artists in the dust! Having matured before our very eyes as an actor and singer, there is no question that multi-faceted entertainer and fiercely independent entrepreneur Ray J is both grown and a superstar following the success of his top-selling 2005 CD *Raydiation*. Now with ***All I Feel*** Ray J flexes even harder - partying, loving, and sharing reflections on life and growing older – all set to the soundtrack of next level acoustic music and electronica tracks. Without a doubt, Ray J has his finger on the pulse of what his audience wants.
